Resident Engineer

Sherry Kesner
Admin. Assistant

Public Works

(6 1 8) 6 5 4 - 6 8 2 3

AUGUST 5, 2011

Projects

- Troxler Avenue Repair - Despite the material delays associated with this project, and the excessive heat the last three weeks, the crew for Quality Saw and Seal have neared completion. If you haven't been down Troxler Avenue lately, give it a ride.
- Beginning next week the Water & Sewer division will be making some corrections to the water main in the intersection of 19th Street & Cypress Street. Korte & Luitjohan will be replacing the pavement once the repairs are made.
- A sure sign that it is time for the new school year, Street and Alley workers have been painting the crosswalks.
- Iberg Road / Glik Park Multi-Use Path Construction - Gleeson Asphalt held a joint meet in preparation for the beginning of this project. There will be a new 10' wide path along the east side of Iberg Road from Broadway to Koch Road as well as the resurfacing of one of the existing walking paths at Glik Park.

UPCOMING

- A new water line will be installed this fall on Pine Street between 13th & 17th. We are currently waiting on permits.
- The Broadway Sidewalk Extension project has been delayed pending the acquisition of one last easement.

12th Street Water Line

In February Water & Sewer Division crews tied in customers on 12th Street from Poplar Street to Zschokke Street to a new 10" water line. Last month the old 2" main was capped and taken completely out of service.

The elimination of the old main should mean fewer breaks and better, more consistent, service to the customers who were tied into the new 10" line.

**The two newest department
employees work to cap the old 2"
line.**
